

I am writing to lodge my objection to the proposed development by Geocon on the site adjoining my home, a unit in 66 Allara St.

The buildings will impact virtually all my neighbours in this building, with the impact of

- Blocking out daylight and direct sunlight
- Intruding on privacy – all units overlooking the site have floor to ceiling windows and balconies
- Cause traffic congestion on our egress laneway and add immensely to the traffic on Allara St in the morning and evenings
- And generally make this building a far less amenable residential living option.
