What Works Approval application are you making a submission for?

- WA102975 - Construction of a new commercial office building, - WA102646 – Construction of a mixed-use residential development

- WA102975 - Construction of a new commercial office building

I didn't find any traffic analysis, nor car parking analysis. I have an ongoing concern that developments in Canberra do not provided sufficient parking for visitors and as a consequence the surrounding streets become congested with parked cars.

The physical design is uninspiring for such an iconic location. While I realise the building that used to be there was dull (and its partner on Anzac Park West), that design reflected the era in which it was built. I believe we could have a building with a more creative and aesthetically pleasing design, not just 'concrete and glass' on flat surfaces.
