

CONSULTATION REPORT

PRE-WORKS APPROVAL COMMUNITY AND STAKEHOLDER CONSULTATION/ENGAGEMENT

BLOCK 40 SECTION 100 (40 LONDON CIRCUIT) CITY

Works Approval for construction of a multi-storey mixed-use (retail, food and beverage with commercial office above) building at 40 London Circuit, minor refinements to buildings at 60 London Circuit and associated public realm refinements.

Acknowledgement of Country

We acknowledge the Ngunnawal people, the Traditional Custodians of the land upon which the proposed works are located, and recognise their continuing connection to land, waters and culture. We pay our respects to their Elders past, present and emerging.

1. INTRODUCTION

This Consultation Report has been prepared to accompany the submission of a Works Approval (**WA**) to the National Capital Authority (**NCA**) for the construction of a multi-storey mixed-use (retail, food and beverage with commercial office above) building at 40 London Circuit, minor refinements to the approved building design for 60 London Circuit and minor refinements to the associated public realm works at Block 40 Section 100 City.

The Consultation Report has been prepared in accordance with the requirements of the NCA Major WA application checklist and regard have been given to the provisions of the *ACT Planning and Land Management Act*, National Capital Plan and NCA policies including the *NCA Commitment to Community Consultation and Engagement 2019*. This Consultation Report outlines the stakeholder and community engagements/consultations, which have taken place during the early and progressive detailed design phases of the proposed development.

The Capital Property Group (**CPG**) representatives, Construction Control (**CC**) representatives and the various project consultants/designers have been undertaking an extensive program of stakeholders and community consultation/engagement since late 2023. Consultations have significantly increased from January 2024, with CPG and CC establishing several regular meetings with key stakeholder groups to resolve various interface items such as Canberra Light Rail Stage 2A and the ongoing ACT Magistrate Court building operations. The Consultation Report structure is summarised below:

- **Section 2 Consultation Methodology and Strategy** – outlines strategy for consultation and engagement.
- **Section 3 Stakeholder Consultations/Engagements** – Provides a summary of the stakeholder consultations/engagements completed as part of the proposed development.
- **Section 4 Conclusion** – concludes the report.

This Consultation Report should be read in conjunction with the Planning Report and various other plans and specialist reports submitted with the WA.

2. CONSULTATION METHDODOLOGY AND STRATEGY

The International Association for Public Participation (IAP2) model for public participation is generally considered the industry best practice and approach to undertaking community and stakeholder engagement. The IAP2 public participation principles can be readily applied to community, stakeholder and government agency consultation and engagement. Accordingly, the IAP2 Core Values and Spectrum of Public Participation have been considered in the pre-application consultation approach and are outlined below.

Table 1: IAP2 Spectrum of Public Participation (Source: IAP2 website accessed October 2024)

	INCREASING IMPACT ON THE DECISION 				
	INFORM	CONSULT	INVOLVE	COLLABORATE	EMPOWER
PUBLIC PARTICIPATION GOAL	To provide the public with balanced and objective information to assist them in understanding the problem, alternatives, opportunities and/or solutions.	To obtain public feedback on analysis alternatives and/or decisions.	To work directly with the public throughout the process to ensure that public concerns and asportations are understood and considered.	To partner with the public in each aspect of the decision including the development of alternatives and the identification of the preferred solution.	To place final decision making in the hands of the public.
PROMISE TO THE PUBLIC	We will keep you informed.	We will keep you informed, listen to and acknowledge concerns and aspirations, and provide feedback on how public input influenced the decision.	We will work with you to ensure that your concerns and aspirations are directly reflected in the alternatives developed and provide feedback on how public input influenced the decision.	We will look to you for advice and innovation in formulating solutions and incorporate your advice and recommendations into the decision to the maximum extent possible.	We will implement what you decide.

Using the above IAP2 Spectrum of Public Participation a detailed consultation and engagement plan was created. The following engagement methods were considered for the duration of detailed design phase of the project.

Drop in consultation / information sessions: run drop in consultation / information session about the project.

Public hearings: Formal public hearings could be used to provide information on the project, can involve logging questions from public members and/or a designated time allotment for people to comment.

Town hall meetings: A more of an open public forum to obtain feedback from various groups about the project and

Informal, targeted discussions: These involve short presentations to targeted audiences (e.g., local businesses, community groups, government agencies), followed by open discussions and ongoing feedback.

Focus groups: A way to learn more initial reactions and ideas from a select group. On the one hand, these can be very valuable in the early stages when developing more concrete engagement plans, however, need to be undertaken in a way that they are not perceived as exclusionary.

One-on-one meetings: These can be valuable for developing relationships, but the best practice is to conduct them transparently because perceptions of a developer secretly meeting with people can undermine trust.

Virtual and in person workshops: These can combine aspects of the above formats (open houses, informal chats, town hall meetings).

Based on the type of community and stakeholders' engagement undertaken throughout the pre-application design development process, a mixture of targeted one-on-one meetings and virtual/in-person workshops/meetings were completed, as these forums enabled key matters to be detailed and discussed at length. In addition, ongoing engagement with stakeholders was completed via phone and email outside the meetings to ensure key matters progressed out of session and were closed out as required.

3. CONSULTATIONS/ENGAGEMENTS

This section provides an overview of the Capital Property Group (CPG), Construction Control (CC) and consultant designers stakeholder and community consultation/engagement activities and areas. These consultations have been separated into two sub-sections stakeholders such as the NCA, several ACT Government Agencies and independent utility providers/agencies, and separate sub-section details surrounding lessee consultations/engagements.

3.1 NCA, ACT Government Agencies, Utilities and Stakeholder Engagement

A summary of the CPG/CC and consultant's engagements with the NCA, ACT Government Agency, Utility and Stakeholder engagements is provided in Table 2 below. All these engagements were either in person or virtual meetings to accommodate all attendees.

Table 2: List of Stakeholder Consultations / Engagements.

Stakeholder (NCA, ACT Government Agency, Utility Provider) / Summary Engagement Matter	Consultation/Engagement Type/Date/Action
Commonwealth - National Capital Authority: <ul style="list-style-type: none"> National Capital Plan provisions. Works Approval applications. Various statutory planning matters. A summary of the outcomes and status of community and stakeholder consultations/engagements is provided below.

National Capital Authority

CPG representatives have held several meetings with senior NCA representatives on the proposed development and Works Approval submission strategy and timing. These meetings have covered the proposed architectural design and siting of the development, strategy and timing for WA submissions, offsite utilities and services works.

ACT Government Agency Engagements

The following key ACT Government agencies have been engaged with prior to submission of this WA application:

- *Infrastructure Canberra (iCBR - formerly ACT Major Projects)* – CPG and CC representatives meet regularly with Senior Executives of iCBR regarding the proposed development and interface with Stage 2A Light Rail. CPG representatives will continue to meet with Senior Executives, design and technical team representatives to ensure all inputs forming part of the Works Approval applications to the NCA are coordinated during and post construction works.
- *Canberra Metro* - CPG and CC representatives meet regularly with Senior Executives of CBR Metro regarding the proposed development and interface with Stage 2A Light Rail. CPG representatives will continue to meet with Senior Executives, design and technical team representatives to ensure all inputs forming part of the Works Approval applications.
- *City Renewal Authority* – CPG representatives have met with CRA representatives regarding the proposed development and continue to brief representatives on the proposal. These meetings will continue for the duration of the planning, design and construction phases of the development.

- *Transport Canberra and City Services and Roads ACT* – CPG representatives held a meeting with Technical and Senior staff of TCCS and Roads ACT, to discuss various matters. CPG representatives will continue to hold meetings with Technical and Senior TCCS staff with a view of securing support for the proposed development. Ongoing meetings with Roads ACT are held as required regarding matters like coordinating TTMPs and the like. These meetings will continue for the duration of the planning, design and construction phases of the development.
- *ACT Magistrate Court* - CPG and CC representatives have held meetings with ACT Magistrate Court representatives regarding ongoing operational court matters and interface during construction. Discussions continue regarding these matters on a monthly basis or are arranged more regularly if required by Court representatives.
- *ACT Correctional Services* – CPG and CC representatives have held meetings with Correctional Services staff regarding ongoing access and operational requirements to the Courts basement and building. These matters continue to be adhered to and addressed as part of the project and overall development.
- *ACT Police* – CPG and CC representatives have met with ACT Police and discussed matters related to access to the City Police Station, where possible CPG/CC has accommodated these comments and matters noting that a number of the ACT Police interface matters are related to the Canberra Light Rail Stage 2A road closures and changes.
- *ACT Department of Public Prosecutions* - CPG and CC representatives have held meetings with ACT DPP representatives regarding ongoing DPP operational matters and interface during construction works. Discussions continue regarding these matters on a monthly basis or are arranged more regularly if required by Court representatives.
- *Evo-energy* - CPG representatives and the project engineers have held meeting with Evoenergy regarding the site, proposed development and interface with the electricity network. CPG representatives will continue to hold meetings with Evoenergy to ensure all utility provider inputs form part of the detailed design for the development and Works Approval application to the NCA.
- *ICON Water* - CPG representatives and the project engineers have held meeting with ICON Water regarding the site, proposed development and interface with the water and sewer network. CPG representatives will continue to hold meetings with ICON to ensure all utility provider inputs form part of the detailed design for the development and Works Approval application to the NCA.

As outlined above CPG and its representatives have undertaken an extensive program of community and stakeholder consultations/engagements prior to the submission of the Works Approval application for the future construction of a mixed-use development at the site. Where necessary CPG and its representatives will continue to engage with community and stakeholders for the duration of construction works and ongoing operation of the building if required.

3.2 Surrounding Lessee Consultation

A summary of the CPG engagements with surrounding lessees is provided in Table 3 below. All these engagements were either in person or virtual meetings to accommodate all attendees.

Table 3: List of Stakeholder Consultations / Engagements.

Community (Lessee / Location) / Summary Engagement Matter	Consultation/Engagement Type/Date/Action
Reserve Bank of Australia Lessee situated at Block 1 Section 18 City (20-22 London Circuit)	Meeting 1 – 9 January 2025 Meeting 2 – 18 November 2025

<ul style="list-style-type: none"> • Overview of the proposed development and precinct. • Proposed construction management plan and engagement with RBA lessee during construction. • Discussions on RBA loading bay area and operational need to retain these loading bays 	<p>Ongoing email correspondence, phone calls and engagements as required. CC onsite construction workers continue to maintain a line of communication with the RBA lessee.</p>
<p>Melbourne Building Representatives including:</p> <ul style="list-style-type: none"> • Representative from Melbourne Building Executive Committee (Block 1 Section 35). • Melbourne Building Restaurant operator. • Representatives who own several Blocks comprising of the Melbourne Building across Section 35. <p>Matters discussed at the meeting included:</p> <ul style="list-style-type: none"> • Overview of the proposed development and precinct. • Proposed public car parking within the development. • Proposed development interface with the Melbourne Building. • Proposed construction management plan and engagement Melbourne Building lessees and tenants for the duration of the works. 	<p>Meeting – Wednesday 22 January 2025</p> <p>Ongoing email correspondence and engagements as required.</p> <p>Following the meeting with a representative from Melbourne Building Executive Committee (Block 1 Section 35) a letter of support for the proposed development was provided to Capital Property Group (refer to Attachment 1 for the letter).</p>

4. CONCLUSION

This Consultation Report has been prepared to accompany the submission of a Works Approval (**WA**) to the National Capital Authority (**NCA**) for the construction of a multi-storey mixed-use (retail, food and beverage with commercial office above) building at 40 London Circuit, minor refinements to the approved building design for 60 London Circuit and minor refinements to the associated public realm works at Block 40 Section 100 City.

The Consultation Report has had regard to the provisions of the *ACT Planning and Land Management Act*, National Capital Plan and NCA policies including Commitment to Community Consultation and Engagement 2019.
