# MAKE YOUR OWN
Roses

little griffins

Materials

- Scissors
- Egg carton
- Red paint
- Paint brush
- Red tissue paper
- Red cellophane
- Glue
- 1 yellow or gold button
- 2 green pipe cleaners
- Sticky tape

This activity involves cutting. Ask an adult for help.

Instructions

1. Ask a grown up to cut out 4 sections of the egg carton, as in the picture. This will form the petals of the flower.

2. Paint the egg carton whatever colour you would like your rose to be — we've used red, but you could use pink, yellow, or another colour.

3. Put the painted egg carton somewhere safe so the paint can dry.

4. Once the paint has dried, ask a grown up to cut out 4 pieces of tissue paper and cellophane. Scrunch up a piece of the tissue paper and cellophane together. Dab a bit of glue inside each egg carton petal and place the tissue paper and cellophane ball in the petal. Repeat so each petal has a ball of tissue paper and cellophane in it.

5. Glue the button in the centre of your flower.

6. Twist one of the pipe cleaners into leaf shapes. Twist this around the second pipe cleaner, which will be the stem of the rose.

7. Use sticky tape to stick the top of the stem to the back of the petals.

Why not try making a garden full of flowers of different colours?

Don't forget to upload some photos to social media and #NCEcraft
