

PLAN

SECTION A

ELEVATION B

- DESIGN INTENT
- The extensively landscaped entry to the Foothills includes a pedestrian footpath and driveway with planted median
 - The concierge allows services such as mail delivery and waste collection to be provided at the entry of the site, controlling larger vehicles within the site
 - The ground plane includes varying surface treatment to define spaces and slow vehicles
 - Residences which adjoin the entry drive have landscaped interface and are elevated to ensure no impact from noise or lightspill, whilst maintaining outlook and passive surveillance.
 - Canopy cover to the entry and roundabout create a sense of arrival and human scale.
